

CS 542 - FABRIC

ISSUES:

1. Kernal keeps restarting due to server issue
2. Slice is not deleted when performing slice.delete() key
3. Terminal keeps running sometimes when I use ./run_bmv2

SOLUTIONS:

1. Had to re-run the project to solve this issue.
2. Manually delete the slice in the Experiments>>My Slices section.
3. Shut-down the terminal.
